

Wetland Education and Restoration Program Workshops

Enhancing Wetlands Through Native Plantings Workshop

All workshops are from 10am-noon

January 14th

February 18th

March 17th

November 10th

December 8th

Join Northwest Trek staff for this two hour workshop to learn how to enhance your wetlands through native planting and natural landscaping methods. This workshop will begin with a 30-minute indoor lecture and finish with 1^{1/2} hours of planting outdoors on Trek property. Workshop materials, gloves, tools and plants will be provided. Please bring water and snacks as needed. This workshop is free, however, class size is limited to 15 participants. Contact Jessica Moore at 360-832-7160 or Jessica.moore@nwtrek.org to reserve your spot today!

Enhancing Wetlands Through Habitat Creation Workshop

All workshops are from 10am-noon

June 16th

July 28th

August 18th

Join Northwest Trek staff for this two hour workshop to learn how to enhance your backyard and woodlot habitats through simple habitat building methods. This workshop will begin with a 30-minute indoor lecture and finish with 1^{1/2} hours of habitat building on Trek property. Outdoor work will include creating brush piles and habitat boxes for native wildlife. Workshop materials, gloves, and tools will be provided. Please bring water and snacks as needed. This workshop is free, however, class size is limited to 15 participants. Contact Jessica Moore at 360-832-7160 or Jessica.moore@nwtrek.org to reserve your spot today!
